JURY HOLDS OEHLERT FIRED FATAL SHOT

Fairfax Coroner's Jury Probes Death of Henry Briscoe

SENSATION SPRUNG

Richard Burnett Denies He Fired Any Shots—Only Two Witnesses Heard.

A sensation was sprung at the coroner's jury inquest in Fairfax county yesterday afternoon in the probe into the fatal shooting of Henry Briscoe which occurred the night of October 15 on the Camp Humphreys road when Acting Commenwealths Attorney Wilson Farr asked Richard C. Burnett if he fired a pistol three times that night. Burnett emphatically branded the report as a deliberate falsehood in no uncertain terms. He also told the jury that he refused to go to Oehlet's home and he denied that he had agreed to pay Oehlert's counsel fee.

Oehlert's wife since the affair he said came to see him, and he testified she told him she had been to see her husband in jail and had told her husband that Burnett was working with the police and doing everything he could against Oehlert. Burnett said he told Mrs. Oehlert he was going to tell the truth. Witness said Mrs. Oehlert then said somebody had told her so and he said she told him the name of a woman who was alleged to have told her. Burnett said he told Mrs. Oehlert that the statement was without foundation.

The jury met at the residence of H. W. Stanton on Duke street road extended and after the testimony of Burnett and Edward Patterson had been given it returned a verdict to the effect that Henry Briscoe came to his death at the Alexandria Hospital at 6.30 o'clock the night of October 16 as the result of a gunshot wound inflicted upon him by William Oehlert from an automatic pistol belonging to Richard E. Stuart.

The pistol was lying on a table in front of the witnesses and jurors. The inquest was conducted by Dr. D. L. Robey, coroner, of Herndon, Fairfax county, and the state was represented by acting Commonwealth's Attorney Richard Farr.

The jury was composed of the following: Fred G. Allbaugh, Arthur D. Kirby, Fred B. Roach, H. T. Blunt, Eugene E. Sisson, J. B. Van Pelt.

The jury convened at 12:45 o'clock yesterday afternoon and it was 3.45 o'clock when they completed their labors. A number of persons attended but were unable to gain admittance to the room where it was held owing to lack of space.

The first witness was Richard C. Burnett. Burnett told of taking an automobile ride that night with Oehlert. After describing the route taken by them he told the jury that at the point where the shooting took place they came upon Stuart's car and a truck near the residence of Pierce Reed. Both machines were stopped. Oehlert he said stopped the car got out and went back to where the men were talking. Witness declared Oehlert exclaimed that it was his car and warned anyone not to put their hands on it. One fellow he said remarked "I put my hand on it and will do so again."

Oehlert at this juncture according to witness stood on the running board of his own machine with a pistol in his hand. Burnett said he begged Oehlert to come on and pleaded with him not to have any trouble with the men. He repeated it he said half a dozen times.

About that time Burnett said somebody appeared to have made a noise like they scratched a match or something on the back of Oehlert's car and Oehlert then walked to the right hand side of the car and discharged his pistol, evidentally shooting into a ditch. Oehlert then came back he said and pulled another pistol out and remarked something that sounded like "stand back." Burnett said he remarked "Willie, for God's sake come on and go home. What do you want to get yourself in trouble for?" Oehlert he said then got into the automobile, sitting on the left hand side and had gone but a short distance when someone threw stones at the car. When they did this [illegible] said Oehlert turned around and shot through the ising glass screen in the rear of the car.

Oehlert then speeded [illegible] the car and witness remonstrated with him. Later witness said Oehlert overtook the car of Richard Stuart and Oehlert he declared gave Stuart a gun and Stuart he said asked Oehlert "how many" and Oehlert he said remarked I [illegible] tered or shot six, he being unable to say positively the exact words used by Oehlert.

The pistol was exhibited to the witness who said it looked like the pistol Oehlert had that night. Burnett

WASHINGTON DAY BY DAY

(From Our Special Correspondent)

Washington, Oct. 28.—President Harding's Speech in Birmingham on the negro question is variously interpreted by Southern statesmen at the National Capital. Some of them are inclined to endorse the principles enunciated by the Chief Executive in the handling of this most perplexing problem.

Senator Pat Harrison, of Mississippi, however, takes issue with the President for the sentiments expressed in his speech. Says Senator Harrison:

The President's speech was unfortunate, but to have made it in the heart of the South where, in some states, the negro population predominates, was unfortunate in the extreme. Of course, every rational being desires to see the negro protected in his life, liberty and property. I believe in giving him every right under the law to which he is entitled. But to encourage the negro who in some states, as in my own, exceeds the white population, to strive through every political avenue to be placed upon equality with the whites, is a blow to the white civilization of this country that will take years to combat.

"If the President's theory is carried to its ultimate conclusion, namely, that the black person, either man or woman, should have full economic and political rights with the white men and women, then that means that the black man can strive to become President of the United States, hold Cabinet positions, and occupy the highest places of public trust in the nation. It means that white women should work under black men in public places, as well as in all trades and professions.

"I am against any such theory because I know it is impracticable, it is unjust and it is destructive of the best ideals of America.

"Place the negro upon political and economic equality with the white man or woman and the friction between the races will be aggravated.

"The President is right in that the race question is a national one and not confined to any one section and his unfortuante and mischievous utterance on the subject will be deprecated by people, in every section of the country who believe in the preservation of white civilization."

The tax debate in the Senate these days which takes up most of the time of that body is "rambling all over the lot." Largely to kill time, Senators have discussed everything from peanuts to politics to prevent a vote being taken on the tax measure.

The subject does not lend itself to rhetoric. No member of the Senate seems to have the gift of Gladstone who "could endow the multiplication table with charm."

This may account for the fact that when Senator King, of Utah, held the floor a whole day his maximum audience was two Senators, six pages and one correspondent who took advantage of the occasion to make up some lost sleep.

A miniature war was staged a few nights ago at the exclusive Army and Navy Club, which resulted in one casualty. The reports of the battle are very meager, as the participants are modest men, and the victim is in no shape to talk. No official communique has been issued.

However, this much is known: One stalwart major is nursing at the Naval Hospital innumerable bruises and cuts from "uppercuts" administered by the "enemy." Until the war developed the major thought he was in the home of his friends, but, when, it s alleged by them, they found he was resorting to unfair tactics, according to Hoyle, an offensive was started which no one man, however big and brave, could check.

Grizzly generals, courageous colonels and weather-beaten admirals made the charge en masse. "Stung" by defeat at cards they took their revenge by physical means. Reports are to the effect that the heaviest losers were the most unmerciful.

When the smoke of battle cleared away, the major was in shape for the hospital, where he will require much fixing up before he looks the same again.

ATTEMPTED ROBBERY

Two Men Charged With Rifling Baggage at Monticello Hotel

Two men, non residents, giving the names of Gabriel Delise and Jack Scrapa, today in the police court were held for the action of the grand jury under $1,000 bail each on a charge of an alleged attempted robbery of baggage at the Monticello Hotel, 807 King street, about seven o'clock last night.

Joseph Ellmore testified that Delise rented a room which had formerly been occupied by Abe Goodman, of Portsmouth, Va., and that in the meantime Goodman appeared and re-rented the room, he having left his baggage therein. When Ellmore went to the room with Goodman he found another man in the room later who gave the name of Jack Scrapa. Baggage in the suit case of Goodman had ben rifled and a new cheap suitcase had been brought into the room it was testified.

THREE MEN SHOT WOUNDS OF TWO MAY BE FATAL

Ferris Brothers, Colored, Wounded in Abdomen Condition Critical

THIRD SHOT IN LEG

Walter Johnson, Colored, Held By Police For Shooting Ferris Brothers Captured on Hunting Creek Bridge.

Three colored men were shot, two of them probably fatally, shortly after 9 o'clock this morning, during the progress of a fight between four colored men. it being a case of two brothers against two brothers.

The two who are probably fatally wounded are Charles Ferris and Elmer Ferris, both of whom are in the hospital suffering from wounds in the abdomen, and William Johnson, who is shot through his leg, the shot having broken his leg.

The Ferris brothers are probably fatally wounded and but little hope is held out for their recovery.

The injured men were rushed to the hospital and treated by Drs. Llewellyn Powell, H. A. Latane.

Word of the shooting was 'phoned into police headquarters and Sergt. Wilkinson, Magner, Durrer, Lawrence Padgett and Carlton A. Padgett went to the scene.

A short time afterward the two Padgett policemen captured a colored man giving the name of Walter Johnson crossing Hunting Creek Bridge. He was brought to police headqurters and when searched had in his possession a big pistol with two bullets gone.

The police say that Walter Johnson confessed shooting the Ferris brothers. Johnson they say told them that the trouble started a short time before this morning on King street in an argument about a dog when the Ferris brothers met his brother, William Johnson, on that thoroughfare.

The men he claims followed his brother and when the party arrived on Pitt street between Wilkes and Gibbon streets, his brother, William Johnson was attacked by the Ferris brothers. One of the Ferris brothers he claims, shot his brother in the leg whereupon he joined in the fracas and he was struck in the head with a rock which he alleges was thrown by one of the Ferris brothers. Walter Johnson says that after his brother was shot he wrenched the gun from the hand of one of the Ferris brothers and it was then grabbed from him whereupon he seized his own pistol which he had in his pocket and fired two times. Both shots hit their men, one first striking Elmer Ferris and the second shot striking Charles Ferris. The shooting created considerable excitement in the neighborhood nad attracted a large throng of persons.

Walter Johnson is 23 years old, is employed by the Southern Railway Company s a fireman and lives at 611 South Columbus street. Johnson says that his oorrect name is Lewis Johnson, although he goes by the name of Walter Johnson. He is being held awaiting the outcome of the injuries of the Ferris Brothers.

After the shooting five colored persons, one woman and four men were taken in custody to see if they could shed any light on the case. They will be given a special hearing in the police court at 5 o'clock this afternoon. Thev are simply detained as witnesses.

Elmer Ferris is twenty-four years old and Charles Ferris is twenty-two years old. William Johnson is twenty-two years old.

GLAD STRIKE IS OFF

Gratification was expressed by the rail employes in this city today that the proposed strike had been called off. The news also was received with considerable gratification by the business interests of the city. Had the strike been put into operation it would have been a serious blow to Alexandria, as there are hundreds of railroad employes here who would have been effected.

Forfeits $25 Bond

Attorney Garner Pays For Prisoner Who Failed To Appear

"Does it pay to go on the bond of a prisoner? Attorney H. Noel Garner says it does not for he will have to put up $25 for James Lightfoot, colored, whose bond was declared forfeited in the police court last night by Justice Snow when his case was called to answer a charge of disorderly conduct and fighting. Lightfoot failed to appear, and the attorney had gone his bond and the court declared it forfeited.

Dr. S. B. Moore, of this city, will tonight receive his Fellowship in the American College of Srugeons at the annual meeting of the Clinical Congress of Surgeons now being held in Philadelphia.

LITTLE STORIES OF THE STREET By The Man About Town

One day last summer,
I met a retired sea captain,
Just seventy-three summers Young.
Tall like the Oak,
Straight like the Pine,
His eye like an eagle's
Only subdued with kindliness.
I expressed the wish
That I too, might live to be
Seventy-three summers young,
If I could rest, and rest,
And not have to work, but
Grow old gracefully.
His kindly eyes twinkled and he said:
I'm not old yet, but
I would be if I didn't
Fish my pounds at three a. m.
Every day in the week and
Work my big garden and tend my vineyard
Except on Sunday.
That is the Lord's day of rest,
And I rest with Him.
Herein lay the secret of
This sea captain's fountain
Of perpetual youth.

In the good old days back west, a regular he-man bearing the bonny Scotch name Douglas, was nicknamed plain "Dug". This before the day of silver sheets and cinema stars.

Opportunity knocks at every man's door. If he finds his host idly awaiting his arrival he lingers but a moment and continues his hunt for a live wire who knows enough to get a strange hold on a good thing by going out and hunting for it.

We saw a nifty heather effect in women's clothes recently. A long coat of graceful cut draped well over knickers which fastened with bands below the knee. It was labeled an outing suit but one of these days they will be worn by every business woman whose calling demands ease of movement.

According to Lloyd's Marine Register the United States is running a bad last in the matter of ship construction. Te United Kingdom leads the field with full ways, as they have a sixty per cent of the work now being done. With all of our facilities our ship yards stand idle and we will produce less than eight per cent of the hulls turned out in the current year.

Something is radically wrong. With efficient management we should be able to undersell any country on earth. We have the raw material, we have the mechanical ability, and we have every modern facility for turning out shipping at rock-bottom prices. While Great Britain forges ahead we sit still and twiddle our thumbs. Is Yankee shrewdness merely a joke?

When the eighteenth amendment went into effect the grocers let out a long wail to the effect that the sale of cloves would fall to nothing. A Royal street concern is authority for the statement that they now sell more cloves than ever before and the purchasers are insisting that they be doubly strong in flavor.

The trend toward the wearing of fancy footgear is causing the retail shoe men a lot of sleepless nights. The stocking of novelty shapes always carried with it the possibility of heavy loss on styles which do not sell well or may be overstocked.

"If I had my way about it," said a local dealer," I would stock nothing but sensible shoes of the plain variety but right now that would be the surest way I know to run my business on the rocks. The only consolation I can find in the situation is that those who want freak styles are willing to spend a couple of dollars extra for them. And just as long as the demand continues we will have the latest novelties in our line.

The prayer meeting held at the Anne Lee Memorial this afternoon, was largely attended and was led by the Rev. R. A. McKay. Rev. McKay is pastor of the Del Ray Baptist Church.

RAIL STRIKE IS CALLED OFF AT BOARD'S DEMAND

Action Taken at Joint Session of Five Transportation Unions

TELEGRAPHERS AGREE

Decision Reached After Conference Lasting All Day and Half the Night.

Chicago, Oct. 28.—The train service unions voted tonight to call off the strike order for next Sunday morning. The necessary instructions will be wired tomorrow from the headquarters of the several unions in Buffalo and Cleveland.

The decison to annul the strike order is based upon the memorandum of the Railroad Labor Board yesterday, in which the board declares that, while it could not undertake to limit the right of either carriers or employes to ask it for permission to make changes, it could decide the order in which it would take up cases and that it had decided not to consider wage cuts until working rules and conditions are disposed of.

This, in effect, guarantees the unions against any further reductions in wages until well into next year—and, as the working rules for the shop crafts have yet to be passed on, almost as long a delay is probable on these.

These include the rule requiring time and one half pay for work in excess of eight hours, one of the main things for which the several unions have contended.

With this is the guarantee of the Railway Executives' Association made at yesterday's hearing before the board by Thomas DeWitt Cuyler, that the roads will not attempt to put either cuts or changes in schedules and rules into effect without first seeking an agreement with their men and, filing that, the approval of the board to any changes.

This, too, settles a point that the men were contending for, all of the "Big Four" chiefs and the head of the Switchmen's Union, allied with them having accused the roads of intending to wipe out the schedules and rules. According to them, the belief that these rules and schedules would be ruthlessly attacked were a compelling factor behind the strike vote.

On the other hand, the roads, which through Mr. Cuyler have declared their intention to press for further reductions in labor costs through direct cuts and through revision of such rules, remain free to make their plans and file as many requests as they may wish.

To do this, however, they must first seek to make an agreement direct with the men in line with the rule laid down in the Erie case of last spring, where that system attempted to get a case before the board by reducing wages first and compelling the men to appeal to the board for relief. In that case, under orders from the board, the cut was rescinded.

STATE NEWS

Danville—Colonel Henry W. Anderson, Republican candidate for Governor, was unwittingly led by local Republican leaders into an awkward situation in his address here last night. Colonel Anderson in the discussion of the race question charged that the Democratic party was responsible for agitation on the subject and that no one had suggested negro equality or moxed schools in this State except the Democratic press. Colonel Anderson, introduced by J. B. Stovall, was unaware that when a Republican member of the General Assembly, he had voted for the motion of a negro member to reconsider a bill which had been defeated, and which, if reconsidered and passed, would give negroes equal rights and privileges in all public conveyances, hotels, theaters and public places.

Bedford—Forest fires are sweeping a section of the Blue Ridge mountains near this place and the volume of smoke observed by residents of Bedford indicates that the fires are steadily sweeping over a wide area. The smoke was observed at the peak of the mountains and the sharp climb makes it difficult to combat the flames. Efforts are being made to secure men to fight the fire, however.

Norfolk—Details for organization of the Gipsy Smith campaign which is to begin at the Tabernacle November 27, were gone into at a meeting Monday afternoon of the general committee, composed of heads of various committees and pastors of Norfolk churches.

FELICITATES MEN THAT RAIL STRIKE IS OFF

The following executive bulletin posted to all employes was issued today by President Harrison, of the Southern Railway System:

"With heartfelt emotion I congratulate you on the news from Chicago that the threatened strike has been called off. During the past nxious week, I have made no public statement of my sentiments concerning the situation, nor have I sent you any message hoping that I had your confidence as I knew you had mine. I sympathized deeply with you collectively and individually for I knew the difficulties of your situation, but I felt that when the time came for final election you would remain loyal to the service of the public in which with mutual respect we have for so many years been engaged together."

RECOVERS AUTOMOBILE

An automobile stolen from a garage at the Potomac yards at 4 o'clock this morning the property of Thomas U. Rowley, was recovered about 7 o'clock today. The machine had been abandoned at the corner of Fairfax and Cameron streets. Mr. Rowley says, which is half a block from police headquarters.

DELAY PARLEY OPENING UNTIL NOVEMBER 12

Armistice Day Program Will Take Precedence Over Conference

OBSERVERS ARRIVE

Russians Already Here—Japan's Attitude on Disarmament Pleases State Department.

Washington, Oct. 28.—Definite decision fixing the time for the opening of the Conference on Limitation of Armaments Saturday morning, November 12, rather than on Armistice Day, as originally suggested, is expected tomorrow. State Department officials said today announcement of the opening session of the Conference would be made upon President Harding's return from his visit to the South.

The regular session of the Cabinet will be held tomorrow, and it is said Secretary Hughes will present the question to the President for decision at that time. Officials who have given careful study to the program for Armistice Day, including the ceremonies for the American unknown dead, are understood to have been unsuccssful in their efforts to find a time for the first meeting of the Conference on that day.

First unofficial observers of the arms conference from Russia, representing the Moderate or Center group, have arrived in Washington and taken up their headquarters in the Lafayette Hotel. They are Prince Lvoff, head of the first Russian provisional government following the Czar; Prof. Paul Miliukov, first Foreign Minister, and Nicholas Avksentiev, member of the Russian Constituent Assembly that was dissolved by the Bolshevists.

Far Eastern affairs and Russia's Siberian possessions they say will be their chief concern during the gathering.

Discussing the Japanese occupation of Eastern Siberia, Professor Miliukov stated that Russians generally were relying upon the repeated promises of Premier Hara that the Japanese troops would withdraw at the first opportunity. The Russian position with regard to Siberia will be favorable to the open door, admitting all foreigners and foriegn capital on the same basis as Russian capital and Russians, he said

The Government at Chita, the capital of the Far Eastern Republic, and the Vladivostock Government, which does not acknowledge allegiance to Chita, though Chita claims it as part of the Far Eastern Republic, are preparing to send delegations to Washington to try to get a hearing. No action has as yet been taken on their requests, but it is probable that both will be admitted.

Officials of the Harding Administration are much gratifed over the sentiments expressed by members of the foreign delegations to the Arms Conference. In view of the unanimity of the sentiment as expressed by the delegates who have arrived or are en route, the highest officials here are confident the Conference cannot fail to accomplish results of great value.

Statements issued by several mem bers of the Japanese delegation and its chief technical advisers have been especially pleasing to the authorities here, indicating as they do a willingness on Japan's part to enter the Conference in a spirit of accommodation and compromise.

HALLOWE'EN BABY

Merchants Offer Prizes For First One Born

Again the first youngster that sets up a wail on Hallowe'en morning, will be a fortunate youngster indeed.

For, following out the plan started last Hallowe'en, several of the progressive merchants of the city have banded together and are offering a number of prizes that are sure to appeal to every parent, as well as the baby who is lucky enough to be in line for these prizes

The stork played a joke on the merchants who took part in the prize giving last year, by delivering two lusty boys at the same time. Thy were the sons of Mr. and Mrs. C. J. Harrington, but like real sports, the merchants who had promised gifts to the first baby doubled the individual prizes and each baby fared alike.

Several made the statement this year that they would go through in sportsmanlike manner, no matter how many babies were born at the same time Monday morning.

The following is the list of merchants taking part in the gift giving:

Swan Brothers, Julius Wolf, A. Katz, Alexandria Studio, R. E. Knight and Son, Saunders and Son, J. E. Purcell, S. F. Dyson and Bro., Frank Michelbach.

The announcement of the gifts they are offering and the conditions of the contest will be announced in tomorrow's Gazette.

INTRA-PARTY QUARRELS

Colonel Anderson and his machine at Richmond are digging into the grass-grown graveyards of long past Democratic campaigns and unearthing the skeletons that lie buried there. They are quoting from Carter Glass's speeches of ten years agone, as to an alleged Democratic machine then existent. But any extended use of the intra-party fights of a dead and buried past is the surest sign of paucity of argument in the living present. We might refer, for instance, to the editorials in the Marion Star, in 1912. in which Editor Harding did his level best to prove Theodore Roosevelt a quack and a charlatan. We might quote Roosevelt likewise in his bitter denunciations of the shameless bosses of the Republican Party. In our own state we might quote what David F. Bailey said of Congressman Slemp, when he tried twice to defeat him in the Ninth District for the Republican nomination for Congress: "Under Slemp's management there is no Republican party outside the Ninth District.... The office-holders all over the state are assessed and their salaries divided, not to raise money to build up the party in the state, but to corrupt the electorate in this district, to the end that the Slemp - Summers combine shall have the offices to sell to such parties as will carry out their selfish will."

This, by the way, reminds us of President Harding's speech at Birmingham on yesterday. He advocates the placing of the colored vote on a parity with the the white vote. The question arises as to which is the real Republican candidate for gubernatorial honors in Virginia—Colonel Anderson or his colored opponent from Richmond? Both claim to be the Republican nominees; which, under President Harding's ruling, would be the one and only representative of the simon-pure brand of Republicanism?

We would fain remind our Republican friends that a house divided against itself cannot stand, and suggest that before soliciting Democratic votes they settle their own intra-party differences among themselves.

Dogs Fate In Balance

Policeman Snellings Claims Canine Barks And Renders Sleep in Day Impossible

Is a dog a nuisance when it barks? This question will have to be determined by Police Justice Snow in the police court tomorrow morning. The dog in question is at the residence of Mrs. William M. Ramey, 1109 Duke street, and is a Collie dog. Policemen Snellings is the complainant, he claiming that the dog barks in the day time and it renddred sleep impossible. Mrs. Ramey accompanied by Attorney Frank Stuart, appeared in court today with a petition signed by a large number of neighbors who claimed that the canine did not annoy them. The court heard the testimony of Policeman Snellings and two others and then postponed the case till tomorrow.

Attorney Stuart moved that the case be dismissed.

Virginia Theological Seminary

Just now when the Literary Digest and other current periodicals are publishing articles on the subject of Empty Church Pulpits, it is very encouraging to know that the Theological Seminary up on the hill has the largest enrollment in the history of this grand old Training School which was founded by the church in Virginia 99 years ago. There are at the present time 60 men, 33 of whom have enrolled this fall.

These students have come to Virginia from China, Japan, Greece, England, Canada, and in the United States from points as far distant as the St. Lawrence, Florida and Texas The new classes of 33 students represents 24 dioceses and 25 colleges. Twenty-six of these men have exchanged their former place of fighting under the flag in the Great War for their new place of service under the Cross for the church and humanity. One sees that they are older, more experienced and with a deeper realization of the needs of men and women. Some of them have left successful careers in medicine, law, business, education and science Several are married and have families.

There is a new earnestness and a new consecration of life coming out of the terrible experiences of the past decade. Those who are leaders in the churches and the colleges are making over old systems to meet the present day needs. The Theological Seminary is leaving no stone unturned to give the best advantages to these men who are in their turn to be leaders of men in the next few years. Improvements have been made both in the equipment and curriculum.

The new library which will house 70,000 volumes, is one of the most beautiful in the state, being of Colonial design, executed by J. E. Sperry, of Baltimore.

Fresh scholarship have been provided through the Virginia Educational Society. Financial aid and new inspiration are both coming out of the Nation Wide Campaign of the church and one feels with gladness that the Seminary this year is a proof of the Awakening interest in the Church and all that it stands for.

There will be a meeting of the Potomac Lodge, No. 38, I. O. O. F., tonight at its hall in North Columbus street.

When It's 10 O'clock in Washington

TEN o'clock was the favored dinner hour in medieval times. Dinner, in fact, comes to us from the early French words meaning, "the tenth hour." Whenever you are in Washington, remember it is always ten o'clock here. At least, every time of day is dining time—and no matter where the clock's hands point, here is food of seasonable excellence, ready at your command at prices you can commend.

CITY NEWS IN BRIEF

Lafayette Council, No. 3, Knights Kadosh, will hold a special meeting this evening and confer the 21st and 24th degrees.

Mr. and Mrs. J. Angus King, of George Washington Park, have just returned from a delightful motor trip through the Valley of Virginia.

The Columbian Players will meet tonight at 8 o'clock. Much interest is being shown in connection with their games which will be held next week.

The friends of Mr, R. W. Garrett will regret to learn that he is confined to his home, in North Washington street ,on account of illness

There will be a special meeting of the board of police commissioners at 7:30 o'clock tonight in the office of Mayor J. M. Duncan.

Mr. Kirk Earle Wallace, of the local Y. M. C. A., will address the teachers of Mt. Vernon district at Pohick School this afternoon. His subject is, "Our New Day." Mr. Wallace has just returned from Richmond where he visited the State Y. M. C. A., office.

George McDonough, eleven years old, was struck by an automobile driven by Stuart Simpson yesterday afternoon while riding a bicycle near Wolfe and Alfred streets, and had his leg bruised. The case was investigated in the police court nad Mr. Simpson acquitted of any charge of negligent driving.

The Episcopal High School football team will play the team of Shenandoah Valley Academy on Hoxton field tomorrow afternoon. Last Saturday Episcopal "wiped up" the field at Front Royal when they defeated the Randolph-Macon boys by the score of 47 to 0. They are not expecting such a walk over this week, however.

The Washington Post this morning publishes a photograph of J. William May as one of the prominent entries in the subscription contest now being conducted by the Post. He has apparently adopted the slogan, "Cadillac or Walk," and he says he is getting too stout to do much walking.

A large number of the supporters of the Dreadnaught team accompanied them to Richmond this morning. The Dreadnaughts will, tomorrow afternoon play the team of the Richmond Athletic Club, which is reported to be one of the strongest independent teams in the South.

There is a public hearing in the office of the United States Engineer, Major M. C. Tyler, in the old Land Office building in Washington this afternoon at 2o'clock. This hearing is to ask for a modification of the existing rules for the opening of the draw on the Highway Bridge. Considerable time is lost each month, by the people who are forced to use this bridge, by the draw being open during rush hours, Captain George H. Evans, of the Chamber of Commerce, of this city, is attending.

The team of Alexandria High School will meet the team of Emerson Institute on Baggett's field tomorrow afternoon at 3 o'clock. This will be one of the greatest games of the High School's season on account of the rivalry of the two schools. According to the dope, which cannot, in football, be relied upon, this should be a tie game as Emerson has made one touchdown against Gonzaga. Gonzaga has made one touchdown against Emerson and Alexandria has made one touchdown against Gonzaga and allowed Gonzaga to make one against it. The High School coach has "reformed" the backfield and now has Jack Pohl and Pettit in it. With this new arrangement of the players it is thought that better results will be had.

State Senator E. Lee Trinkle, Democratic nominee for Governor of Virginia, will tonight at 8 o'clock in the auditorium of the John Marshall High school, deliver probably what will be the most important address of the campaign. This will be Senator Trinkle's first address of the campain in Richmond and he is expected to reply to several issues raised by Colonel Henry W. Anderson, his Republican opponent. Included among them, it is said, probably will be the race question and the contention over negro election judges in Charlottesville.

Charlottesville—It was quite an interesting incident of the recent Confederate Reunion that three brothers out of six who served in the Confederate Army should have been in attendance—all hale, hearty and full of youthful enthusiasm. They were Bartlett Bollin, of the University of Virginia; Samuel Bolling of Bedford City, and Stewart Bolling, of Staunton. The first two were in Mosby's command and the last named in the Thirteenth Virginia Cavalry.

Colonial Beach—Authorities at Colonial Beach have been ordered not to allow anyone in the Eastlake cottage. Since Mrs. Eastlake was murdered, nearly a month ago, hundreds of persons from all sections of Virginia have been in the Eastlake cottage examining the personal effects of the accused man, his children and his murdered wife, and some of the curious have even taken away with them souvenirs, consisting of children's toys, pictures books and other articles.

IN MEMORIAM

In sad but loving remembrance of our mother and wife, FANNIE B. SMITH, who departed this life five years ago, October 26, 1916.
We always think of you dear mother,
And our hearts are sad with pain,
This world would be Heaven to us
Could you be with us again.
I sit and think of you dear mother,
When I am all alone,
I miss your dear, sweet smiling face
Here in our lonely home.
Days of sadness still come over us,
Hidden tears so often flow,
Memory keeps our mother near us,
Although she died five years ago.
By her husband, H. B. Smith,

Norfolk—The petition of the pool and billiard hall proprietors that the age limit of youths permitted to enter those places be lowered from 21 to 18 was unanimously turned down Monday afternoon by the city council. The council's action followed the reading of numerous letters and telegrams from church organizations, and the presentation of personal pleas by representatives of the Church Federation of Norfolk.

Jury Holds Oehlert

((Continued from page one)

was unable to say whose pistol it was. There were he said four or five shots fired, they going off in rapid succession.

Oehlert witness said told him the pistol belonged to "Dickey" Stuart The engine of Oehlert's car was running at the time of the shooting, although the car was at a standstill he said.

Edward Patterson testified that he was in the car with Richard Stuart the night in question, and was driving the car when they encountered the car in which Briscoe was a passenger. Stuart he said was returning from Camp Humphreys, using his car to haul passengers to and from the camp.

According to Patterson when near the place of Pierce Reed a car turned off to the left and cut across the road in front of car driven by him. His car he said went on the left hand side of the road in order to clear the car mentioned. Stuart he said suggested to him to stop and see what the trouble was. Witness said Stuart seemed to think the car in question was trying to break his, Stuart's car, Stuart then got out and asked who was driving the car in question and someone gave an affirmative answer. There were only a few words Patterson said which turned off into a friendly argument more than anything else.

At about this time Patterson said Oehlert drove up and stopped in front of Stuart's car. Oehlert got out and remarked "What is the trouble." Witness said he did not think he got any answer to his interrogation.

Patterson then said just as he was getting ready to leave Stuart remarked "Oehlert is going in" and witness said he stopped the car whereupon Oehlert walked up to the car. Witness was unable to say what Oehlert said or did, if he said anything. He was on the right side of Stuart at the time he said. He also was unable to say if there was any conversation between Stuart and Oehlert at the time.

Afterward witness said he drove off and the car driven by Oehlert passed him near Hardbower's Hill. Next he said he saw Oehlert's car on Patrick street near Burroughs' feed mill and it had stopped. At Stuart's suggestion he stopped. Stuart witness said got out of the car and walked back. He was unable to say whether or not Oehlert got out of his car or not, and neither was he able to say whether Stuart had a talk with Oehlert at the time.

Witness said he asked Stuart if there was any trouble, and he said Stuart told him he was just lighting a light in the rear of the car. Patterson said he did not know that Oehlert had gotten Stuart's pistol. Witness said he saw no rocks thrown. He was unable to identify the pistol which was lying on the table before the jury. Attorney Farr then read to Patterson part of a signed statement regarding the affair made to Mr. Farr by Richard Stuart. According to Patterson the first he knew of the shooting was when Police Sergeant Wilkinson told Stuart that night.

No other witnesses were placed on the stand.

The next move in this case will be its presentation to the grand jury in Fairfax County. This probably will be done early in November.

CALOMEL GOOD BUT AWFUL TREACHEROUS

Next Dose May Salivate, Shock Liver or Attack Your Bones

You know what calomel is. It's mercury; quicksilver. Calomel is dangercus. it crashes into sour bile like dynamite, cramping and sickening you. Calomel attack the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tone for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and it if doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

BURNING TO DEATH

The shocking instances of females having been burnt to death renders the knowledge of a discovery lately published by Sir Richard Phillips, in the Monthly Magazine for their total prevention, of the highest consequence. He deduces from the principle of the ascension of flame, that ladies ought to lie down sa soon as they discover their clothes, on firee; the progress of flame will by that means be instantly checked and may be easily and deliberately extinguished without any fatal injury as usual to the head, face, bosom and throat. He proves his principle by the following experiment; he took two slips of printed cotton, a yard long, and on lighting one of them at the lower end holding it perpendicularly, it was consumed to a cinder in a fifth of a minute, and the volume of flame was so great as to rise two feet. He then lighted an exactly similar piece of cotton and laid it horizontally on a pair of tongs so as to be hollow, and in this situation it was five minutes burning, and the flame at no one time ascended an inch in height, and might have been extinguished by the thumb and finger—This plan and easy experiment ought to be read in the presence of the females of every family.

What Do You Know About Your Blood?

Is It Normal? Is It Rich? Is It Free of Waste Products? Is It Pure?

How the Test May Be Made.

In justice to yourself and your loved ones you should know the truth about your blood—for who knows at what time he or she will be called upon to stand this test.

Ask yourself these simple questions: Do I feel tired when I get up in the morning? Am I all fagged out at night? Is my face pale and drawn? Do I suffer with pains in my muscles and joints? Am I subject to any skin disease? Have I any pimples or boils?

Nature is warning you if your answer to any of these questions is "Yes." Nature now needs help. She has done her best but is failing.

Listen to nature's warning. Your blood is your fountain source of energy—therefore keep your blood rich and pure.

Our greatest health asset is to have blood which is pure and clean—blood which is free of waste products.

For over 50 years, thousands and thousands of men and women have relied on S. S. S. to clear their blood of waste products. S. S. S. will improve the quality of your blood by relieving you of the waste products which cause impoverished blood and its allied troubles—skin disorders, rheumatism and a lowered vitality.

The same qualities which give S. S. S. its beneficial effect in clearing your blood of waste products make it extremely desirable for *keeping* your blood in good condition.

Get S. S. S. at your druggist.—Beware of substitutes. Write Chief Medical Director, Swift Specific Co., D-717 S. S. S. Laboratory, Atlanta, Ga. for special medical advice (without charge). He is helping people every day. Ask him to send you his illustrated booklet, *"Facts About the Blood"*—free. S. S. S. is sold by all druggists.

QUIT TOBACCO

Memorial Exercises Nov. 11

Richmond, Va., Oct. 28.—President Harding has invited the Virginia Department of the American Legion to be represented at the Memorial exercises to be held on Novembr 11 in Arlington National cemetery, when the burial of an unknown member of the A. E. F., who lost his life overseas, will be made in the Memorial Amphitheater.

Every state and territory in the Union will have a representative present who is a member of the American Legion. They will be the guests of the Nation from their homes, while in Washington and on the return trip, and will form a part of the official mourners, following the body from the capital to Arlington cemetery.

The body of the unknown American will be brought from France early in November and will lie in state in the rotunda of the Capitol from the night of November 9 to 9 a. m., on November 11, when the procession will start to Arlington.

The Virginia representative will be named by department headquarters in the next few days and will go to Washington on November 10.

Virginia department headquarters of the American Legion announces that so far the western railroads have not made teh special 1-cent per mile fare for delegates to the national convention of the Legion, which opens in Kansas City on October 21, available for those who travel in Pullman cars.

Under present arrangements delegates will be forced to change either at St. Louis or Chicago from Pullmans to day coaches in order to obtain the lowest rate to the convention. A similar change must be made on the return trip. This is brought about by the fact that the western roads have not followed the lead of the trunk lines association in making the special rate applicable to Pullmans as well as day coaches.

Bulletins have been sent out to every post of the American Legion in Virginia by H. W. Faint, chairman of the Legion Committee in the Virginia Historical Pageant, asking the assistance and support of the posts in the pageant that is to be staged in Richmond next May.

Here are eight well-known milk making feeds. You can buy them ready-mixed as Ce-re-a-lia Sweets. Or you can mix them yourself. Home mixing means tying up lots of money. You have to buy in immense quantities to get these good feeds cheaply. Even then—

Would *you* know just what proportion of each ingredient to use to get most milk and keep your cows in good physical shape? Could *you* be sure of a thorough mix? Could *you* add palatable cane molasses without making your feed lumpy—hard to handle? No.

But it can be done, is done with Ce-re-a-lia Sweets. We're so sure that Ce-re-a-lia will increase milk production that we offer:

Clean-Up Squad at Work

In spite of their contract with the government during the World War former soldiers living in the mountains of Southwestern Virginia and West Virginia are chary, and in some cases, almost afraid of the government's intentions toward them in respect to compensation for injuries received in service. In many of the hill communities, according to members of the "Clean-up Squad" and other agents of the Veteran's Bureau operating in the territory, the men believe government to be either a pension that goes to all men who saw service, or a "slick move" on the part of the government to get them back into the army.

The "Clean-up Squad" operating in West Virginia has far outdistanced the other squads operating in the Fourth District for the number of new compensation claims originated. This is laid to the lack of previous information in the hill country. In south-western Virginia, where the Virginian "Clean-up Squad" has now finished its work, a surprising condition was found.

In Buchanan, Virginia, men came into the Veteran's Bureau squad office with marked disabilities received in service, and filed their first claims, in most cases, three years after they received their injuries. In one case a man who had his face almost blown away by a gasoline explosion in France told the "Clean-up Squad" officers he did not know he was entitled to compensation because he "wasn't any hero soldier and didn't get shot, but just got blew up trying to put a fire out in camp."

In many parts of the hill country the communities look upon the government compensation as a pension. They did not see why one man was getting eight dollars a month; another sixteen, and still another close to eighty dollars a month. In these communities they did not understand why all the men who saw service were not getting their full "pension." When they were told that even some disabled men would have to make application before the government could know they were entitled to compensation and pay it, they thought the government was getting up a new draft list which would be used for getting them back in the army.

In other communities just the opposite idea prevailed. It was thought that unless a man had been a marked hero, or shot in battle, he was not entitled to anything.

One of the difficulties met up with by U. S. Veterans' Bureau agents was a fear, at first, in the "moonshine" localities, that they might be "revenooers." Much of this fear has now been overcome. It has had to be. A few months ago men needing to be sent to the hospitals for "gas" after effects and other diseases contracted in service would not consent to putting themselves into the hands of government agents, for fear the government was trying to put them in jail.

A nurse operating in the hills of West Virginia for the U. S. Veterans' Bureau has had a number of thrilling experiences during the past two years. For lack of transportation facilities she has had to do much travelling on horseback and on foot. On one occasion she was picked up by a groupe of men in an automobile who recognized her and offered to "tote" her some six or eight miles. She got in the car and minded her own business, but she had to rest her heels high on several demijohns of "corn licker," and had several waits on her trip while deliveries were being made.

The "Clean-up" Squad" drive in Virginia has just been completed with very satisfactory results, and the situation in the hill country has been greatly improved, according to the officers of the squad. The newspaper publicity secured and the information given by the government representatives is being quite generally spread around the hills, and this better understanding of the government's plans is already beginning to show results in new cases coming in. Similar results have been affected throughout the rest of the state of Virginia. Equally good results have been obtained by the Veterans' Bureau in Maryland, where the ten weeks "Clean-up" drive will finish in a few days. The drive in the District of Columbia has been exceptionally satisfactory and in West Virginia results have far outdistanced expectations.

Tinting Will Temporarily Improve Silks and Laces

Sometimes, especially with light-colored silks and Georgette crepe, it is convenient to give delicate tints by some simple method. "Bluing" and "pinking" are most often resorted to. The United States Department of Agriculture finds that, as a rule, the color obtained by tinting is not so permanent as that froh dyeing. There are soap dyes on the market which may be used for this purpose, or a tinting water may be made by soaking colored crep or blotting paper, or by mixing a few drops of colored ink in clear water.

A glass of tinted water held to the light will show about the same color that it will give to the material. Red crepe wrapping paper will easily impart enough color to a basin of water to restore a faded pink crepe de chine waist to its original shade. Violet or green ink or ordinary blueing will act similarly. A small amount of regular dye can also be used without boiling to tint silks. The color of deep cream or ecru lace may be restored by tinting with tea. Coffee is sometimes used, but it is less desirable as it leaves an odor and oes not give so clear a tint. A cheap grade of black tea is good for tinting, or left-over tea may be used.

Here's the Big New Loaf
–That Everybody's Asking for

IT'S the pride of Holzbeierlein's Bakery — Washington's famous cake makers. NEW and DIFFERENT all the way through—*made* different and *baked* different! An appetizing flavor and wholesome goodness that you never tasted in bread before.

It took a long while for FA-MUS Bread to attain the peak of perfection which it now holds. Much experiment and expense was involved. But now that it has become the supremely delicious loaf that everyone acclaims it, our efforts to develop a *better* bread have been crowned with success.

Try this big, sunny-brown loaf at dinner today! It gives added enjoyment to every meal. And it's always FRESH and baked to a uniformly delicious flavor. In two sizes—long and short.

Ask your grocer for FA-MUS Bread—but be persistent this time. INSIST on FA-MUS Bread.

Army Recruiting

Wanted! Fine, young, up-standing, able bodied men, physically fit, educated in the primary subjects, (at least), and citizens of the United States. A certain number who are not yet citizens, but who have signifed their intention of becoming such, through the taking out of first papers, will be considered.

The foregoing is the gist of the message that the Secretary of War is sending broadcast throughout the country to all army posts, stations and camps. Accompanying the message is the information that the army needs a number of men to fill vacancies that have occurred and which have operated to bring the army below the 150,000 men for which there is approriation.

Recruiting for the army, under the new system, will be conducted by the various posts, stations, and camps of the army that are scattered through the nine Corps Areas of the country. From each of these, parties of officers and men are to be sent to nearby towns to search out the best of the young men who wish to enter, or re-enter, the army, and to take them to the nearest post or or camp. No general recruiting stations are to be established for the time being.

Youngsters who have not yet reached their 18th birthday are not wanted, nor will they be accepted. It has been directed that all of the recruiting forces investigate the statements of prospective candidates for enlistment, and verify them before the men are accepted. Men who can not read or write English are not desired in the new army, and will not be accepted for enlistment. The army is to continue its educational system, but it is not going to take the men who cannot read or write and teach him those things which he should have learned when he was a child.

When the prospective soldier faces the doctor, he will find the tests difficult for any but a well-nigh perfect man to pass. All recruiting parties have been notified that Special Regulations 65 1-2 of the War Department will be rigidly enforced. These relate to the physical examination of candidates and are prefaced by a paragraph which states the standard which goes to make up a good soldier. Briefly, the requirements are as follows: "He must see and hear well; his heart must be competent to stand the stress of physical eexrtion; he must be intelligent enough to understand and execute military maneuvers, obey commands, and protect himself; and he must be able to transport himself by marching as the exigencies of military life may demand." In additon, he will be wearing the uniform of the United States, and a certain dignity must be his at all times. The inferior man cannot fulfill these demands.

Enlistments are to be so handled that the army will not exceed 150,000 men at any time, theerfore it is expected that the standard of men obtained will be the highest that the army has ever had. That, literally, it will be hand picked. It is stated that the allotment system will be used in obtaining men and that each Corps Area will be authorized to enlist men to fill vacancies only. Reports will be called for frequently to assure that the enlistmentss do not exceed the number of vacancies.

No bar is raised against the reenlistment of men who were recently discharged from the army, providing they can measure up to the new standards. If a man wishes to come in again however, he must enlist for three years, while the man who has not served an enlistment may choose between one year and three years, as the term of his service. Good moral character, physical fitness, ability to read and write and citizenship are the prime requisites for the young man who desires to become a soldier under the new regime. But, he doesn't have to wait until a recruiting party comes to his town. He can go to the nearest post, camp or station and apply for enlistment.

CHURCH, SOUTH

Nashville, Tenn., Oct. ....—Rev. E. L. Russell, secretary of home missions, Methodist Episcopal Church, South, Nashville, Tenn., is of the opinion that if secular business is stimulated by a well defined program ,the work of the church will be similarly benefited.

In response to the widespread interest in rural life and the call of rural pastors for help in making their churches more efficient, Dr. Russell has issued a program setting forth the requirements for a standard rural church from the view point of the home mission department of the Methodist Episcopal Church. The requirements are the following:

"That the pastor shall devote at least three-fourths of his time to the work of the community, that the church shall work systematically to serve all occupational classes in the community and all racial elements which do not have their own churches.

"That the pastor shall receive a total salary of at least $1,200 a year and home, with an annual increase up to at least $1,500 and house within five years.

Community service, including study of social, moral and economic forces of the community and a definite program of community co-operation led or participated in by the church.

"Co-operation with other churches of the community; and definite organized activities for the various ages and sex groups in the congregations and community."

The physical equipment of the rural church according to the program worked out by Dr. Russell, shall include the following:

"A church building providing an auditorium with a seating capacity approximately equal to the maximum attendance at regular service and equipped with a piano or organ.

"Provision for social and recreational purposes.

Separate rooms or curtained spaces for Sunday School classes or departments.

"Stereoopticon or motion picture machine.

"A well equipped kitchen; an up to date parsonage; adequate sanitary toilets on the church property; hitching places for horses and parking for automobiles.

"All property kept in good repair and in sightly condition."

THE DOOR SLAMS ON HAPPINESS

Poor Blood Makes Bad Health—Then Comes the "Blues"

Once the vigor of red blood becomes sapped of its strength, the door to happiness is literally slammed. Weariness of body follows and its unfailingly engenders depressed thoughts To be reserved and cheerless becomes a habit. After a time there is an almost filmy dimness in the expression of the eyes and a pallor to the skin. Days seem dull and dark and difficult. A sense of insufferable gloom pervades the spirit.

Then it is that Gude's Pepto-Mangan is the great help. It is a red blood builder. It puts red in the blood—increases the number of corpuscles which make the blood rich and red. When the blood is restored to its natural healthy state, the sensation of well-being returns. Instead of shuffling along carelessly, there is the firm and springy step, the bright lusterful eyes, the clear complexion, identified with the strength and vigor of good health. The druggist has Gude's Pepto-Mangan in both liquid and tablet form. (Adv.)

Union Services

The union services in the Methodist Protestant Church are being well attended.

Last night the Rev. Thomas B. Shore, of Philadelphia, delivered a great spiritual message which was enjoyed very much by all present. The singing was fine. The old time songs, were enjoyed by all. Tonight at 7:45, the Rev. D. H. Martin, D. D., pastor of Trinity M. E. Church, will be the speaker. Of the course the mention of Dr. Martin's name as the preacher for the evening is a good guarantee for a full house. If you have not been to these services don't fail to come. You will enjoy them.

Rev. Robert Browne, pastor of the church, will conduct the service this evening. Everybody welcome. Come.

A Telephone System Must Expand

THERE is no such thing as closing the capital account of a telephone system unless it proposes to go out of business. The telephone system that is not going forward is going backward.

Each new subscriber requires additional plant—a new telephone set, additional central office equipment, in most cases an additional line from the central office to the subscriber's premises.

But these additions cannot wait until the subscriber wants service. To do this would require that applicants wait sometimes for an indefinite period. We must anticipate the public's needs and always maintain a reserve plant—conduits, cables, switchboards, wires.

To meet the requirements for next year and the years to come the money for the extensions must be secured from the investors this year. Our earnings this year, then, will determine whether we can attract the new capital necessary to meet your requirements for service next year.

IF STOMACH IS BAD LET DIAPEPSIN END GAS, INDIGESTION

"Papes Diapepsin" has proven itself the sure relief for Indigenstion, Gases Flaturence, Heartburn, Sourness, Fermentation or Stomach Distress caused by acidity. A few tablets give almost immediate stomach relief and shortly the stomach is corrected so you can eat favorite foods without fear. Large case cost only a few cents at drug store. Millions helped annually.

Witches and Goblins To Visit Playgrounds

Witches and goblins will hold full sway at the masked fete which will be held at the Friends Playgrounds Hallowe'en night.

This fete should be a wonderful success, as a majority of the children who are regular attendants at the grounds are making extensive preparations for their costumes. Arrangements are being completed to handle a large crowd who will attend the first open air masked fete ever held in this city and those who have been selected as judges will not have any task in picking out the prize winners.

To defray the expense there will be on sale cake, candy and other articls which will help to knock the chilly air away from the spectators during the evening.

Come one, and come all, and help make this playground a howling success, something Alexandria should be proud to call its own.

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing Marshroot for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease—thousands die of it every year who ought to be enjoying the blessings of life and health. Watch the symptoms If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sideache you ought to get a bottle of Dr. Carey's Marshroot right away.

It has wonderfully benefitted tens of thousands of cases of kidney and bladder troubles and is the medicine you can always depend upon. Results are guaranteed.

NOTE—Dr. Daniel G. Carey was a practicing physician for many years and his great Prescription, Marshroot aided thousands of sufferers from kidney and bladder troubles. Hereafter you can always get this effective Prescription at all reliable pharmacists the country over. Keep in mind the name, Dr. Carey's Marshroot prescription No. 777. No other medicine can take its place.
